YOUR PAKISTAN EMERGENCY FEEDBACK

PAKISTAN

After already enduring some of the worst flooding the world had ever seen in 2022, Pakistan was a nation still reeling from the devastating loss of life, infrastructure, housing, and farmland when deadly flooding struck again in March of last year. Weeks of heavy monsoon rainfall saw rivers burst at the seams, killing around **160** people. As the rain eased, winter began, bringing new challenges as well as trying to recover from a second year of natural disaster. Millions were homeless, starving and hopeless.

Penny Appeal were able to mobilise teams on the ground in Pakistan to bring humanitarian aid to those battling the cold. Thanks to your incredible kindness, we were able to distribute over **1,000 kits, benefitting 6,860 people – Alhamdulillah!**
