At least **427 people** have lost their lives as heavy monsoon rains continue to trigger landslides and flash floods across northern Pakistan. The majority of casualties have been reported in the mountainous Khyber Pakhtunkhwa province, while **34** fatalities were confirmed in Gilgit-Baltistan and **22** in Azad Jammu and Kashmir.

WEATHER FORECAST

The Met Office has forecast torrential rains in Sindh and parts of Balochistan from 19th to 22nd August, with widespread heavy showers expected in Karachi, Hyderabad, Tharparkar, Mirpurkhas, and adjoining districts, while Barkhan, Khuzdar, Gwadar, Panjgur, and other areas of Balochistan may also witness heavy downpours. These conditions may cause urban flooding in low-lying areas of Sindh and flash floods in parts of Balochistan, with strong winds and lightning posing risks to weak structures. The public, travelers, and tourists are advised to take precautionary measures and stay updated with the latest weather alerts.
