*The death toll from heavy monsoon rains that have triggered landslides and flash floods across northern Pakistan has risen to at least **315 people**.*

Most of the deaths were recorded in the mountainous Khyber Pakhtunkhwa province in northwestern Pakistan, with another five killed in the northern region of Gilgit-Baltistan and nine in AJK.

WEATHER FORECAST

The Meteorological Department has forecasted intensifying monsoon activity across the country from August 17 onwards, with strong currents from the Arabian Sea and Bay of Bengal coupled with a westerly wave expected to bring widespread rain-wind/thundershowers, heavy to very heavy at times, across Kashmir, Gilgit-Baltistan, Khyber Pakhtunkhwa, Punjab, Sindh, and Balochistan. Torrential rains may trigger flash floods in northern regions, hill torrents in D.G. Khan and eastern Balochistan, as well as urban flooding in major cities including Islamabad, Rawalpindi, Lahore, Gujranwala, Sialkot, Peshawar, Nowshera, Karachi, Hyderabad, and Sukkur. Landslides in hilly areas and windstorms/lightning may also cause damage to infrastructure. Authorities have advised the public, travelers, and tourists to remain cautious, avoid unnecessary exposure in vulnerable areas, and stay updated on weather advisories.
