

REBUILDING PAKISTAN

PHASE 2 FEEDBACK REPORT

Safe homes.
Secure futures.
Stronger Communites

pennyappeal

Reporting Period: 1st January – 30th June 2026

FROM FLOODS TO FUTURE

THE FLOODS

The 2022 floods made things worse.
Across the country

33 MILLION
People affected by the 2022 floods

1,700+
Lives lost

12,900+
People injured

8 MILLION
People displaced from their homes

District Sujawal, covering 7,335 km² with 158,854 households, was among the hardest hit. Thousands of homes were destroyed, crops ruined, and livestock lost–leaving families without shelter or security.

REBUILDING PAKISTAN PHASE 2

FEEDBACK REPORT

Building Homes.
Restoring Dignity.
Rebuilding Lives.

A MESSAGE FROM US

Assalamu Alaikum,

Thank you for your generous donations towards the Rebuild Pakistan appeal. Your compassion has helped provide climate-resilient homes for families affected by the floods, giving them safety, dignity, and hope for the future.

Alhamdulillah, 40 homes have been built as part of the second phase of the Rebuild Pakistan project in Sujawal District, creating lasting change for vulnerable families.

The Prophet Muhammad ﷺ said: “When a person dies, his deeds come to an end except for three: Sadaqah Jariyah (ongoing charity), beneficial knowledge, or a virtuous child who prays for him.” (Sahih Muslim)

Your contribution is a lasting act of charity that will continue to benefit families for years to come. We pray that Allah (سُبْحَانَهُ وَتَعَالَى) accepts your efforts and rewards your generosity.

Yassar Khan
Chief Executive Officer

THE NEED

The **2022** floods made things worse. Across the country, **33 million** people were affected. **Over 1,700** lives were lost and more than **12,900** people injured, including **615** children. Nearly **8 million** people were displaced from their homes including the elderly, women, and children. District Sujawal, covering **7,335 km²** with **158,854** households, was among the hardest hit. Thousands of homes were destroyed, crops ruined, and livestock lost-leaving families without shelter or security. This context highlighted the urgent need for climate-resilient permanent housing to support recovery, reduce vulnerability, and help communities rebuild their lives safely and sustainably.

For families here, rebuilding is not a choice- it's survival. Your support through the Rebuilding Pakistan project has already made a life-changing impact. Forty permanent, climate-resilient homes were built in Sujawal, giving 40 families-189 people in total-a safe place to sleep, protection for their children, and hope for a brighter future.

Every home is more than just bricks and walls-it is a fresh start, a promise of stability, and a chance for families to rebuild their lives after unimaginable loss.

1,700+
Lives lost

12,900+
People injured

615
Children among those injured

1,323
People impacted across the wider community

FROM THE GROUND UP

Local communities helped guide and monitor the construction of 40 climate-resilient homes, giving families a safer, more secure place to call home.

OBJECTIVES ACCOMPLISHED

Alhamdulillah, the project has successfully achieved the following objectives:

- Communities helped choose who would benefit, ensuring the homes went to the families in greatest need, including women-headed households, families with many children, and the elderly.
- Village Development Committees (VDCs) worked closely with our teams to guide the construction process, monitor progress, and maintain transparency.
- Through the generous support of donors like yourself, 40 homes were built, reaching 189 people- including women, children, the elderly, and those living with disabilities- who had lost everything to the floods. These homes were designed not just to provide shelter, but to give families a place where they can sleep safely, cook, and live without fear of the next flood.
- Construction activities included two-bedroom homes with toilets, a veranda, and electrification.

The impact has been profound: families now have a place to call their own, children can study safely at home, and parents can focus on providing for their loved ones without constant worry. The smiles on their faces and the relief in their voices speak louder than any words-they no longer face each day with fear, but with hope.

Thanks to your support, these homes are more than just buildings- they are a safe space, and a source of hope for families who had lost everything. Your generosity has turned despair into security, and tragedy into a chance for families to rebuild their lives with confidence and peace of mind.

BENEFICIARIES

The Rebuilding Pakistan project directly reached 40 households, benefiting 189 individuals, including persons with disabilities. These families had faced unimaginable loss, with homes swept away by the devastating 2022 floods, leaving them vulnerable to the harsh elements and daily uncertainty.

Beyond the immediate households, the project has positively impacted approximately 1,323 people in the wider community. Local residents participated in construction, community planning, and monitoring, creating a sense of ownership and collective resilience.

Through your support, families now live in safe, weather-resistant homes, where children can study, parents can provide, and the elderly can live with comfort and care. These homes have brought a renewed sense of hope, security, and stability, giving families the opportunity to focus on their education, health, and livelihoods—freed from the constant fear of floods or displacement.

Your generosity has done more than build houses; it has provided much needed shelters, saving lives, and dignity for families who thought they had lost everything.

The voices of the beneficiaries tell the story more powerfully than numbers ever could:

“

We were hopeless, but Allah sent Penny Appeal as a blessing. Now we sleep without fear of the rain, and we can care for ourselves with dignity. May Allah bless those who helped us.

— *Chacha Soomar & Amaa Aami, Village Haji Salleh Mallah*

MORE WAYS TO EXTEND YOUR LIFELINE TODAY

Your continued support can change even more lives.
